

Letter of recommendation

Agent: Hinckley Garage Services

Petit Forester UK have been working with Stevie Rose of Hinckley Garages Services for a number of years now. Originally working with other agents, however has now set up on his own.

Standard of work is extremely high and VOR's with recommendations of back-to-workshop repairs are never present. All work can and is undertaken on site.

Service work can be left in his capable hands and booking attendances with the end user leaves us very little work to undertake ourselves. Any defects and minor adjustments that are highlighted are completed at the time with none or very little follow-up action required, saving further call out and travel charges being incurred.

Cost of any attendances are fully reasonable and leave other tail lift suppliers that we use looking very expensive comparatively.

We are hoping that Hinckley Garage Services continues to prosper and grow and thus enable us to expand and offer much more work, further afield than currently covering.
